Did you know…?
IRB Net is the only means of submission of IRB related paperwork at CUNY CUNY HRPP Offices and the UI-IRB no longer utilizes IRB Manager nor do they accept paper submissions.

**The Latest CUNY HRPP Updates**

**I am a faculty member and I am collaborating with a faculty member from another CUNY Campus, which HRPP Office does the review?**

Multi-CUNY-College Human Subjects Research (Section 7.6.8) When a research project is to be conducted in collaboration between two or more CUNY colleges, the human subjects research protocol should be submitted to the HRPP Office at the CUNY College with which the Principal Investigator of the project has primary affiliation. The human subjects protocols should only be submitted to one CUNY HRPP Office regardless of the number of CUNY campuses collaborating on the project. Please note that this change ONLY concerns multi-site research involving multiple CUNY colleges. Please refer to the CUNY Human Research Protections Program Policies and Procedures for information regarding the review of multi-site protocols involving collaborations with non-CUNY institutions or investigators.
